V Sloveniji mu ni enakega, zato je zaščiten kot tehnični spomenik in danes velja za simbol železarstva in Železnikov.

In the old town centre of Železniki you can also admire the ***BLAST FURNACE****, dating back to the second half of the 19th century. The blast furnace was a part of a bigger blacksmiths facility called "fužina". It is the only one of its kind in Slovenia and therefore protected as a technical monument. Today, it remains as a symbol of the once rich blacksmiths heritage.*

Skozi stoletja so Selca veljale za versko in kulturno središče doline, na kar spominja vaška dominanta, **cerkev sv. Petra**, in **Krekov dom**, poimenovan v čast velikemu slovenskemu kulturniku in politiku Janezu Evangelistu Kreku.

The village of ***SELCA*** *is the oldest village in the Selca Valley, after which the valley itself was named. The village was first mentioned as early as 973. Throughout the centuries, Selca was considered the religious and cultural centre of the valley, as reflected by its dominant landmarks – the* ***Church of St. Peter*** *and* ***Krek's House****, named in honour of the great Slovenian cultural figure and politician Janez Evangelist Krek.*

V kulturni krajini Selške doline imajo posebno mesto **KOZOLCI** - lesene ali delno zidane, od strani odprte stavbe za sušenje sena, žita in drugih pridelkov. Mnogi so pokriti s **skrilnatimi ploščicami**, kritino, ki je bila nekdaj značilna za Selško dolino.

PLEČNIKOV SPOMENIK V DOLENJI VASI je zasnoval znameniti arhitekt Jože Plečnik. Oblikovan je kot kapelica – odprta lopa na štirih stebrih. V objekt je mojster Plečnik vkomponiral veliko simbolike. Štirje stebri simbolizirajo štiri leta vojne. V njih so vgrajeni različni kamni iz Selške Sore, nabrani na Bukovškem polju. S tem spomenik na najlepši način druži padle iz različnih krajev Selške doline.

The ***PLEČNIK'S MONUMENT IN DOLENJA VAS*** *was designed by the renowned architect Jože Plečnik. It is shaped as a small chapel – an open shelter supported by four columns. Master Plečnik incorporated a great deal of symbolism into the structure. The four columns represent the four years of the war. Various stones from the Sora River, collected at the Bukovško polje site, are built into them. In this way, the monument symbolically unites the fallen soldiers from different parts of the Selca Valley. The names of the fallen are carved into the central part of the monument.*
